Everything For a Better Sleep

Somkar Furniture Company, which was founded in 1967 in Izmir, has grown its production and management capacity day by day and as of the 54th year, with the participation of the family members of the 3rd generation to management, has become a production and sales organization that has reached national size in the production sector of sleeping products such as mattress, bed base and headboard in the modern production site in Izmir, Torbalı.

Our company, whose products are in high demand both in Turkey and abroad, has become a modern production facility of 6,000 square meters, employing an average of 120 people who have continuously improved thanks to their investments over the years.

Our company, which can produce an average of 150 mattresses and 150 bed base-headboards per day on the current production track, produces approximately 45.000 mattresses and 45.000 bed base-headboards of various sizes and quality per year.

Our company, which produces its products as economic and top class products by shaping them according to the demand in the market, has become able to export its products to more than 25 countries including Germany, Netherlands, Belgium, Austria, Sweden, Greece, all over Europe and surrounding countries due to the quality standard it reaches.

Our company, which tries to use the most advanced systems and materials in the upper groups of its products and follows the world trends, carries out production for the domestic and foreign market especially in high-quality product groups thanks to the production structure it has continued without compromising for years.

When we look at the current market situation of our company which is able to sell the products we produce both domestically and abroad through our dealers;

- There are approximately 100 furniture sales companies and dealers, mostly in the Aegean Region, who are constantly buying from our company.

-Moreover, our products are presented and sold to all Izmir residents in their own sleep products showrooms in Izmir.

- In addition, the SB Serabed brand is exported to Germany, Greece, Belgium, Austria, England, Czechia, Sweden, Israel, Kazakhstan, Moldova, Croatia, North Macedonia, Georgia, Romania, Morocco, Senegal, Bosnia and Herzegovina, Ivory Coast, Guinea, Montenegro, Serbia, Kosovo, Ukraine, Slovenia, Bahrain, Libya and the Netherlands.

- Our company, which also takes part in digital marketplaces in Turkey, sells an average of 5,000 mattresses in a year through these platforms.

Therewithal, our R&D and design department, which we have created to produce innovative products, and an average of 120 personnel that we already employ, continues to develop designs and productions in accordance with sleep trends around the world.

Our company aims to continue its investments and carries out appropriate medium and long-term work plans because it believes that Somkar, SB Serabed, Sleep Mode brands, which it has with all these investments and moves that improve its corporate capacity, should be recognized as a brand with a solid structure and superior service quality understanding.

Everything for a better sleep.

Proud

You will miss lying on this mattress all day, which we have revealed its soft texture with a special touched high-weight knitted cotton fabric, viscose and feather foam.

Breathable Mattress Thanks To Its Special Fabric,Extra Comfort Coming From Feather and Viscose Foam

We have produced Proud, one of the most valuable members of the Luxury Edition series, by using special fabric with very high moisture absorption properties. The highest quality materials used in the Proud mattress increases the comfort offered by the inner layers and allow the mattress to maintain its shape for many years. Thanks to the Proud mattress, you will experience the use of a cool bed that traps moisture inside. The outer surface of this mattress is covered with a very special and enriched natural cotton knitted fabric. For long-lasting comfort and durability, the highest quality foam and pocket springs are used in all layers.

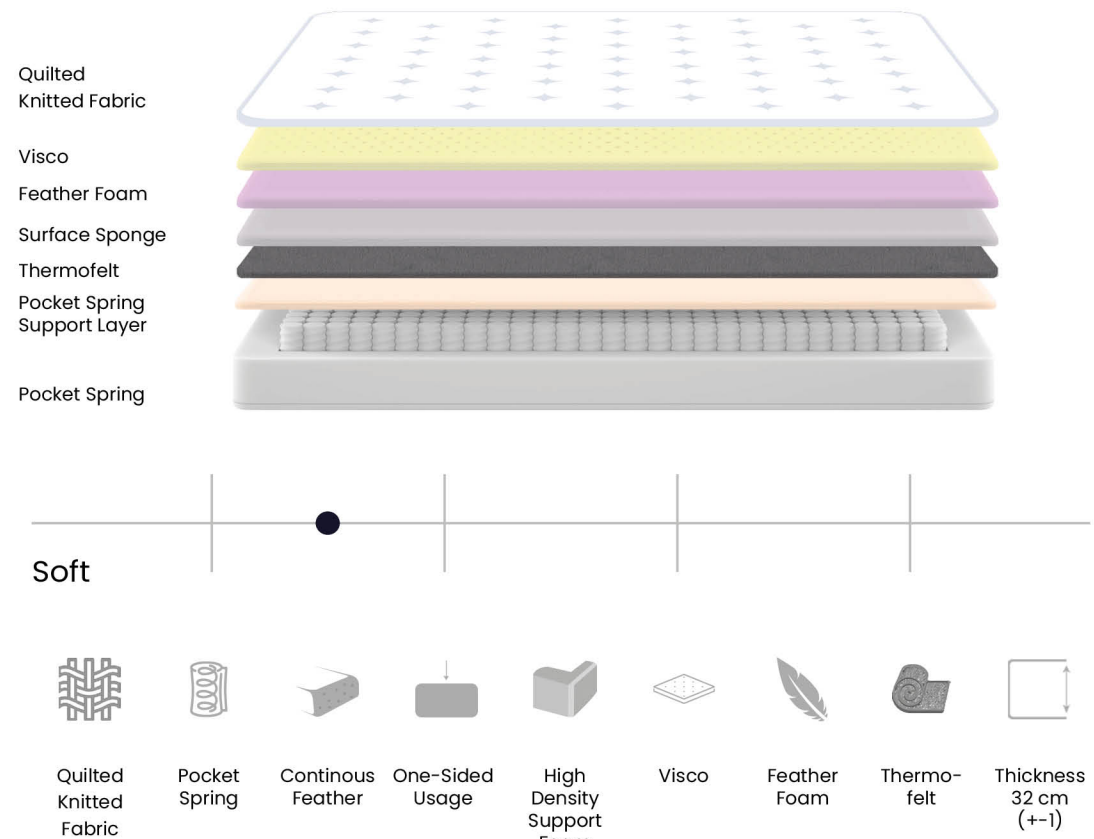

We also gave it a magnificent softness with the feather foam. The viscose foam took comfort and durability a few steps further. The special cotton fabric on the surface helps the outer surface of the mattress to absorb moisture, drying it quickly and allowing your body to breathe. This non-perspiring fabric structure prevents the odor that may occur in the mattress, which makes Proud a longer lasting bed.

Pocket Spring Comfort

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

The increased balanced surface in the top layer will meet the weight of your body and meet your back and waist with comfort, while the base area of the case, which includes the pocket springs remaining in the center, and the high-quality components in the lower layers will offer the most appropriate support to your body.

Shiny

One of the most exclusive beds in the Luxury Edition series with its special quilted cotton fabric. Moreover, get ready for an extraordinary comfort experience.

Breathable Surface Fabric and Double-Sided Usage

The Shiny mattress helps to keep the temperature at the required level by regulating the body temperature thanks to its special fabric. While the skin-friendly fibers in the fabric content on the surface help the body to warm up, it preserves the natural sleep temperature by providing moisture transfer thanks to its superior absorbent feature. The natural vegetable fibers in the cotton structure inside the fabric helps the body to cool down.

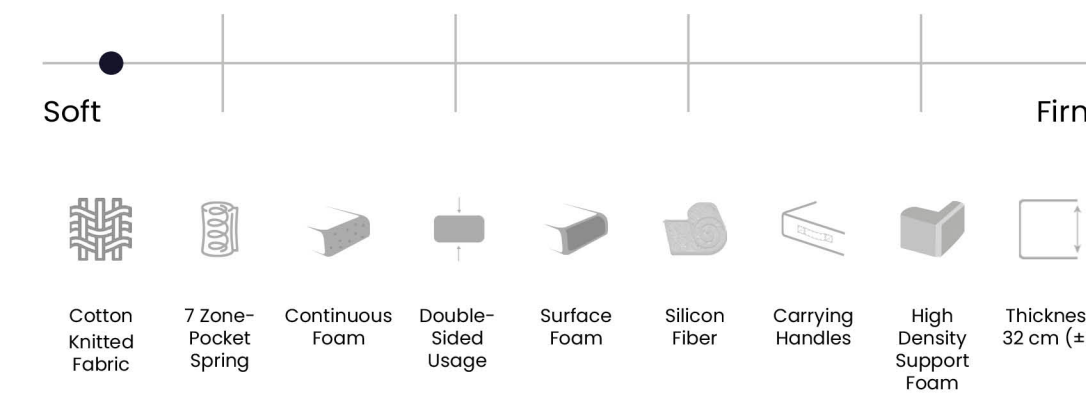

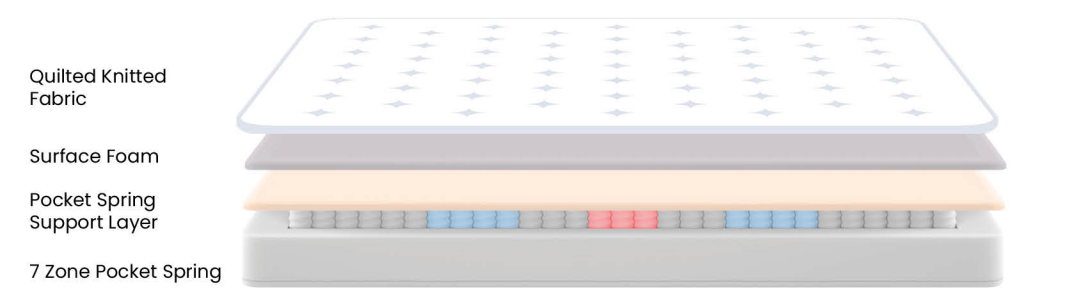

Thanks to the Cottonflex soft felt used in the Shiny mattress, your bed has become more comfortable.

The highest featured pocket springs and foams are used in all layers for long-lasting comfort and durability. The highest quality materials used in it increase the comfort offered by the inner layers and allow the mattress to maintain its shape for many years.

7 Zone Pocket Spring System

The 7-zone pocket spring system, which supports the waist, shoulder, hips and vertebra separately thanks to the springs with different diameter and different firmness alined in 7 distinct areas in accordance with body structure, will give you an excellent sleep experience. The increased balanced surface in the top layer will meet the weight of your body, bringing your back and waist together with comfort, while the base area of the case, which includes the 7-zone pocket spring system in the center, will support your body with high-quality components in the lower layers.

Elegance

Two separate spring systems. Exceptional comfort. Excellent appearance.

Extra Comfort with Micro Pocket Spring

Hand-sewn and carefully crafted Elegance. With micro pocket spring system and feathers.. For perfect sleep; your body is weighed by a layer of soft and strong micro-pocket spring-loaded pads on the top surface of the Elegance. This layer combines your back and waist with comfort, while the floor area consisting of high-quality components in the lower layers supports your body in an ideal way.

We used the micro pocket spring technology in the rich pad situated on the top surface of the Elegance in order to create the highest comfort. With micro-pocket springs, we have taken comfort and softness to the next level and created an unattainable comfort. Just below, we have created an optimally balanced base support using the finest quality foams along with a support layer of feathers and larger pocket springs. Thanks to the soft pad situated on the top surface which will wrap your whole body, those who are looking for extra comfort will meet a magnificent comfort.

Breathable Exterior

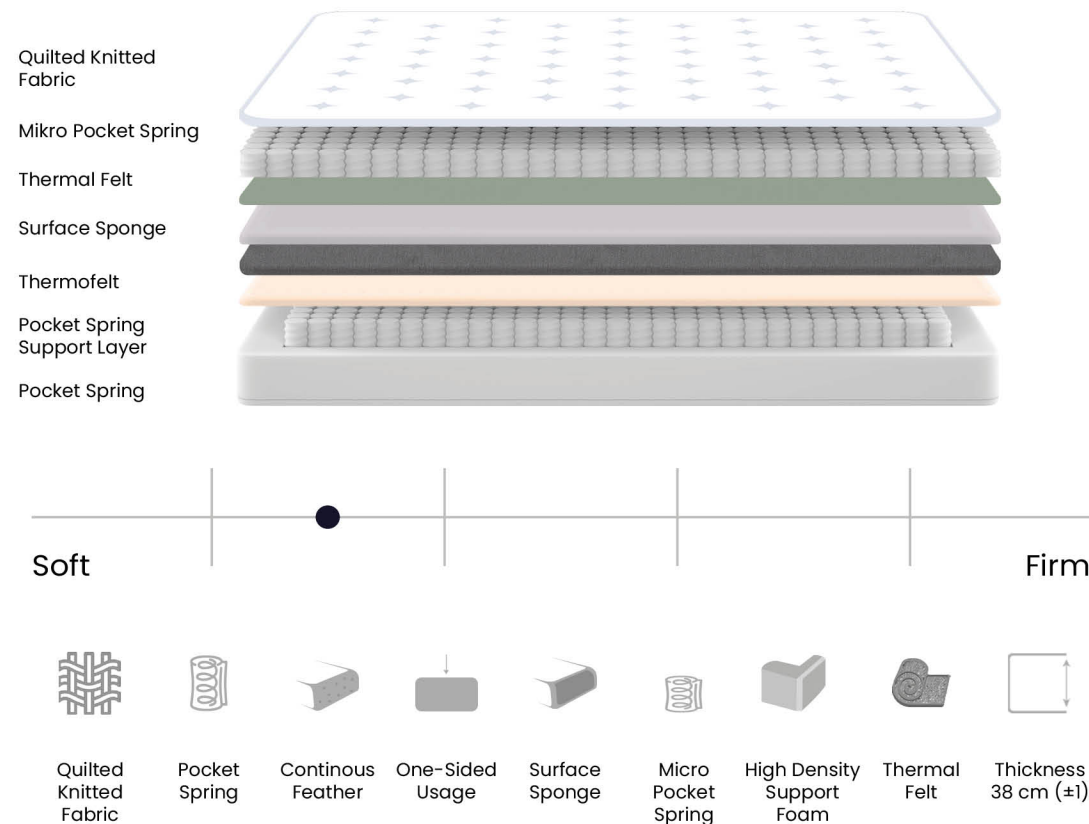

The special cotton knitted fabric we have designed with hand workmanship absorbs the moisture of the outer surface of the mattress, helping it to dry quickly and allow your body to breathe. The highest quality materials used in its content increase the comfort offered by the inner layers and allow the mattress to maintain its shape for years.

Pocket Spring Comfort

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

The increased balanced surface in the top layer will meet the weight of your body and meet your back and waist with comfort, while the base area of the case, which includes the pocket springs remaining in the center, and the high-quality components in the lower layers will offer the most appropriate support to your body.

Relax

One of the most prestigious members of the Luxury Edition series.. Produced for a unique sleeping experience.

Extraordinary Appearance and Exceptional Comfort
The special cotton fabric which we used to produce the Relax mattress combines with an aesthetically unique exterior design. With the perfect conformity of this special high weighted cotton fabric, your mattress absorbs moisture and you get the ideal sleeping temperature. An extremely healthy sleeping environment awaits you along with the Relax mattress. Relax will take your sleep quality to a very high level.

Freedom of Double-Sided Usage

Thanks to its double-sided usage, it is much more long-lasting.
It is one of the most comfortable products of our collection thanks to its specially produced feather sponge, pocket springs and pocket spring support layer. It is produced as one of the most durable bed you will ever lie in thanks to the materials we use in the layers inside the mattress.

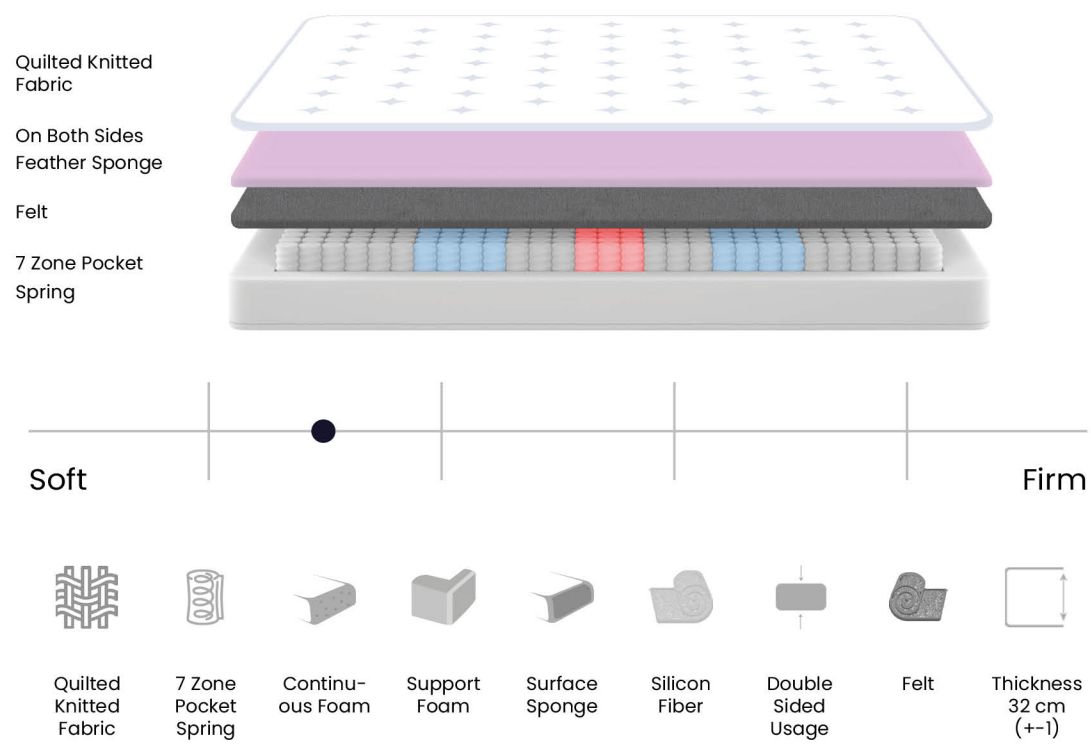

Increased Balance, Long-Lasting Mattress

Specially reinforced layers for each pressure zone that all points of your body applies to the mattress will provide you uninterrupted and quality sleep.

7 Zone Pocket Spring System

The 7-zone pocket spring system, which supports the waist, shoulder, hips and vertebra separately thanks to the springs with different diameter and different firmness aligned in 7 distinct areas in accordance with body structure, will give you an excellent sleep experience. The increased balanced surface in the top layer will meet the weight of your body, bringing your back and waist together with comfort, while the base area of the case, which includes the 7-zone pocket spring system in the center, will support your body with high-quality components in the lower layers.

Stone

One of the most exclusive designs of Serabed. Designed for you with the highest quality materials and hardest foams .

Unique Durability Comes with Specially Designed Hard Pad

We produced the Stone mattress for those who love pocket spring and hard mattresses. To create the highest durability, we used a combination of hard and durable sponge and high weight knitted cotton fabric on the upper surface. Just below this pad, we used a pocket spring and top-quality foams to create an optimally balanced base support. Thanks to the special structure of the fabric used in the Stone mattress, a mattress suitable for use in all seasons has emerged.

The hardest sponges we use in the pad of the mattress will optimally support your body weight and support your back and body in the most appropriate way according to your sleeping position. In addition, the highest quality materials used in the Stone mattress increase the comfort offered by the inner layers and ensure that the mattress maintains its shape for years.

Pocket Spring Comfort

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

The increased balanced surface in the top layer will meet the weight of your body and meet your back and waist with comfort, while the base area of the case, which includes the pocket springs remaining in the center, and the high-quality components in the lower layers will offer the most appropriate support to your body.

Dream Mode

A brand new technology; ' Zippered Pad That Can Be Used In Both Directions'

Your Dream Mode mattress will continue to offer you the same comfort for a very long time thanks to its directional pad.

Brand New Technology; Zipper Pad

Thanks to its brand new technology, you can use the pad of your mattress on either the front or back surface and change it at any time. You will have a soft mattress when the zippered pad is used on top and a firm mattress when it is used on bottom.

The special fabric used on its outer surface offers a perfectly balanced heat dissipation performance. When you are asleep, your mattress achieves to an ideal temperature level, reducing the humidity and allowing you to have an uninterrupted sleep.

WW
Dream Mode mattress which we created using a special skin-friendly and high-strength fabric, is supported by a soft pad for those looking for extra comfort and durability. It will be one of the most sturdy and comfortable beds you have ever slept in.

While your body weight will be met by the soft pad on the top layer, the lower layer we produce from high-quality components will also provide the appropriate sole support for your body in a stable way.

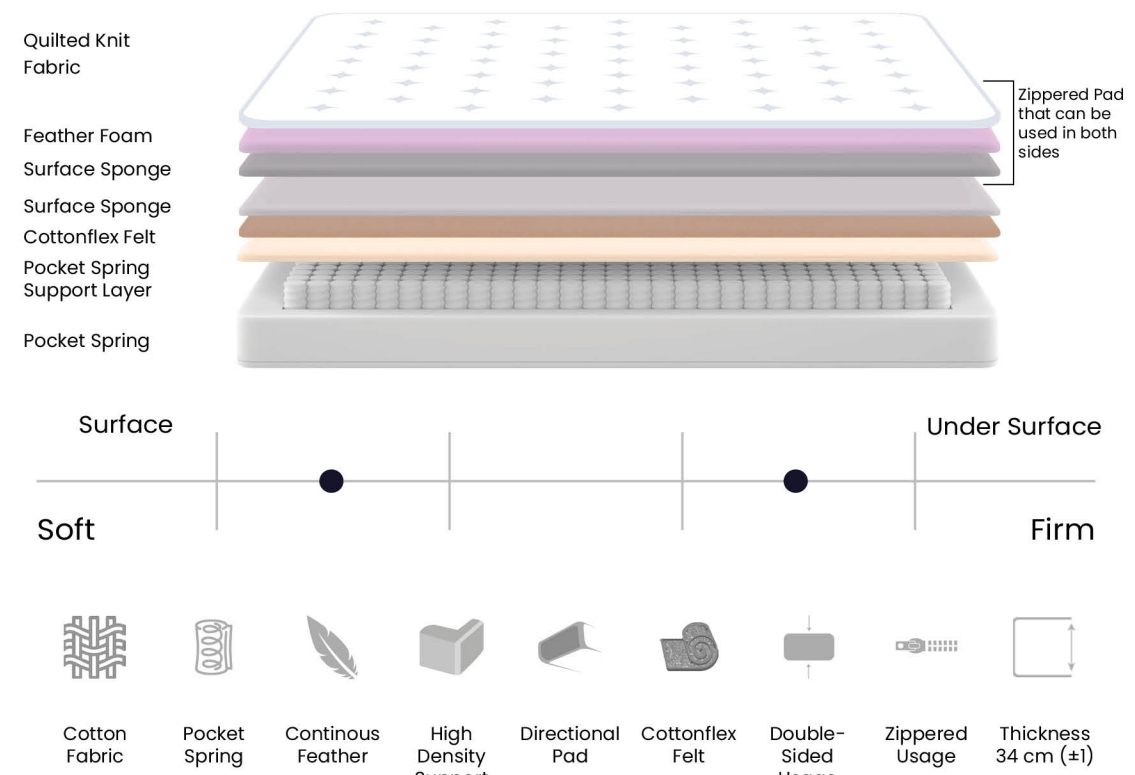

Dream Mode keeps the body balanced thanks to the special fiber used in the mattress quilts. Thus, it brings you together with a highly comfortable sleep experience and allows you to wake up more rested.

Pocket Spring Comfort

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

The increased balanced surface in the top layer will meet the weight of your body and meet your back and waist with comfort, while the base area of the case, which includes the pocket springs remaining in the center, and the high-quality components in the lower layers will offer the most appropriate support to your body.

Cashmere

Produced for those who prefer firm and also comfy mattress.

Special Fabric, Stylish-Looking

Cashmere mattress, where we use a fabric produced using cashmere effect on the surface, helps to keep the temperature at the required level by regulating body temperature.

Thanks to the special fiber structure of the cashmere effect fabric, we have created a mattress suitable for use in all seasons; special fibers contained in the fabric on the surface helps the body to warm up, while its superior absorbent properties retain natural heat. Special knitted fabric helps the body to cool off.

High Quality Firm Mattress and Balanced Inner Material

We have produced a very firm mattress thanks to the sponges of good quality and other mattress components which provides the firmness that we use in the layers of the mattress close to the surface.

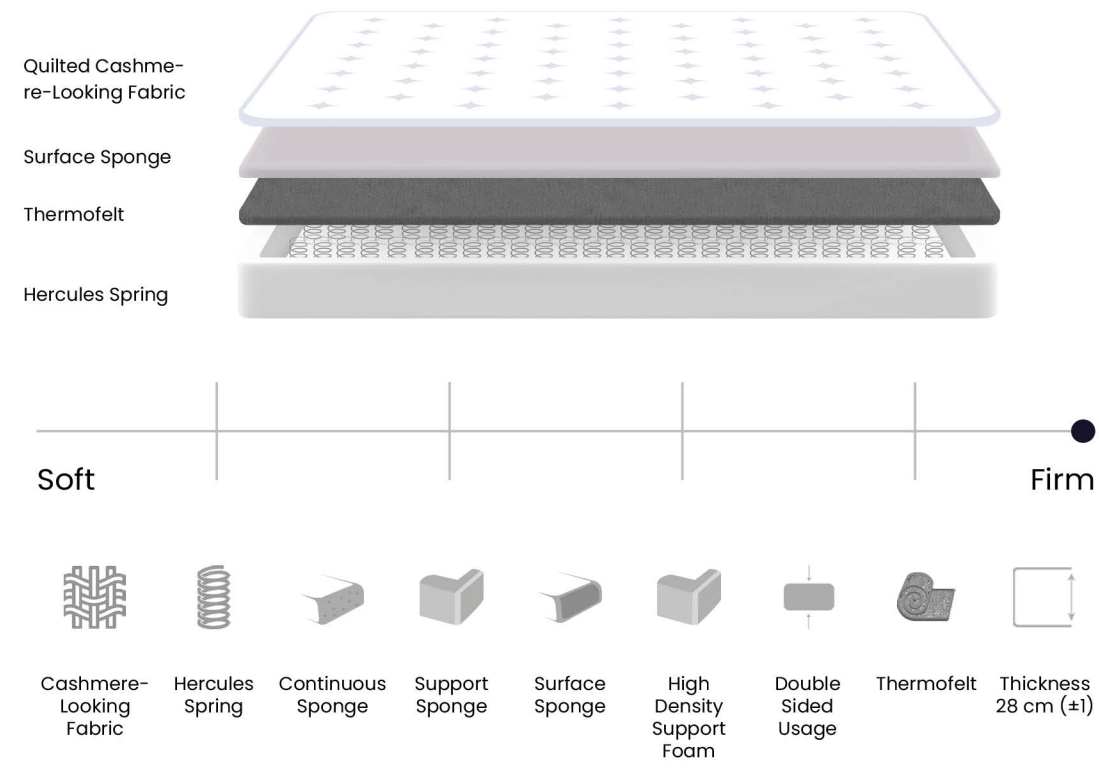

The in-bed layers that emerge with high-quality mattress components also increases the durability of the mattress by providing a stable base support suitable for your body.

The Cashmere mattress is designed as long-lasting with the materials that will maintain its form for a very long time.

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

Gold

This mattress with a feather pad sponge is one of the most comfortable mattresses you can sleep in. The Gold mattress, which will double your comfort, is specially made for those looking for a balanced mattress.

Double Sided Pad Mattress

The Gold mattress, which we produced using special cotton knit fabric, was supported by 2 soft pads for those looking for extra comfort.

Under favor of the design which allows you to use double sides, the life of your mattress will be extended and the mattress will maintain it's form for a very long time.

High Quality, Maximum Comfort

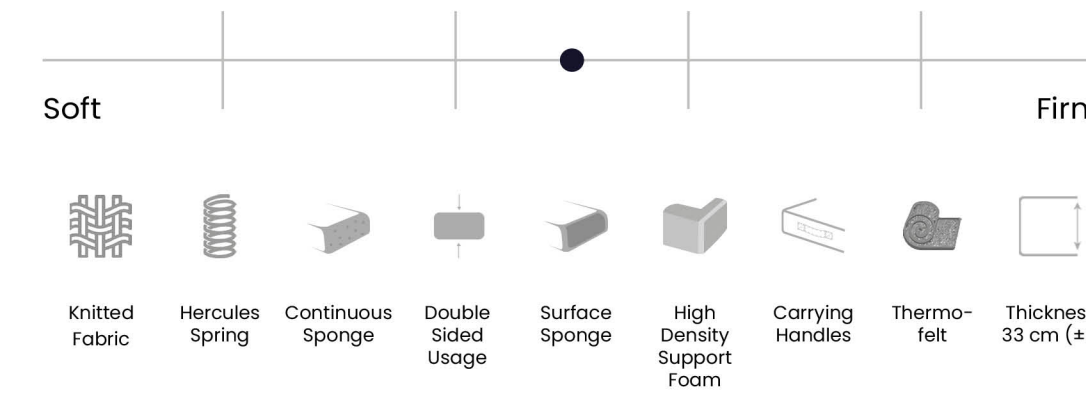

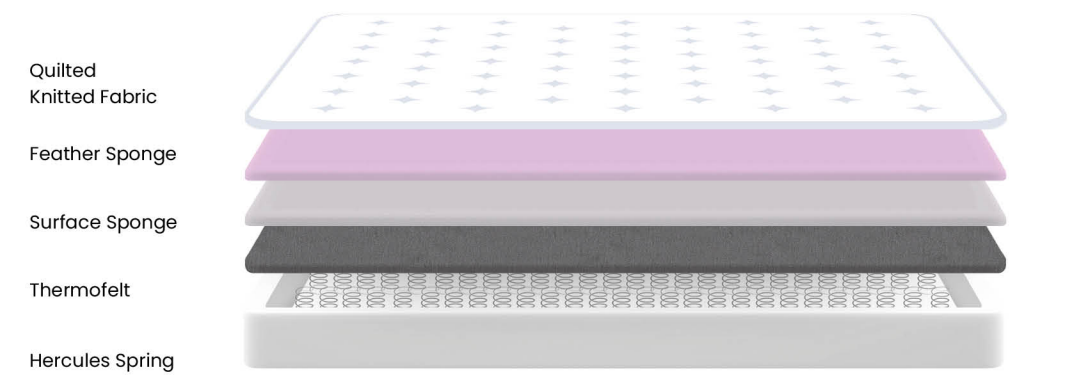

Your body weight will be met by the soft topper in the top layer, while the lower layer we produce from high-quality components will consistently provide the right base support for your body.

It keeps the body in balance thanks to the special fiber used in mattress quilting. Thus, brings you together with a highly comfortable sleep experience and allows you to wake up more rested.

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

Crea

One of the most exclusive mattress in the Serabed series with its special quilted cotton fabric. Moreover, get ready for an extraordinary comfort durability.

Pocket Spring Comfort and Hard Sponges Combined

Crea mattress, which is produced with the usage of special cotton fabric providing moisture transfer, is designed for firm mattress lovers.

Thanks to the hard sponges we used in the layers inside the mattress, it was produced as one of the strongest mattresses you will ever sleep on.

It is one of the most comfortable products of our collection thanks to its specially produced pocket springs and pocket spring support layer. It is produced as one of the most durable bed you will ever lie in thanks to the materials we use in the layers inside the mattress.

The special fabric we use on the outer surface, which is produced by supporting it with cotton, will both affect you aesthetically and increase your sleep quality. Thanks to its double-sided usage, it lasts much longer.

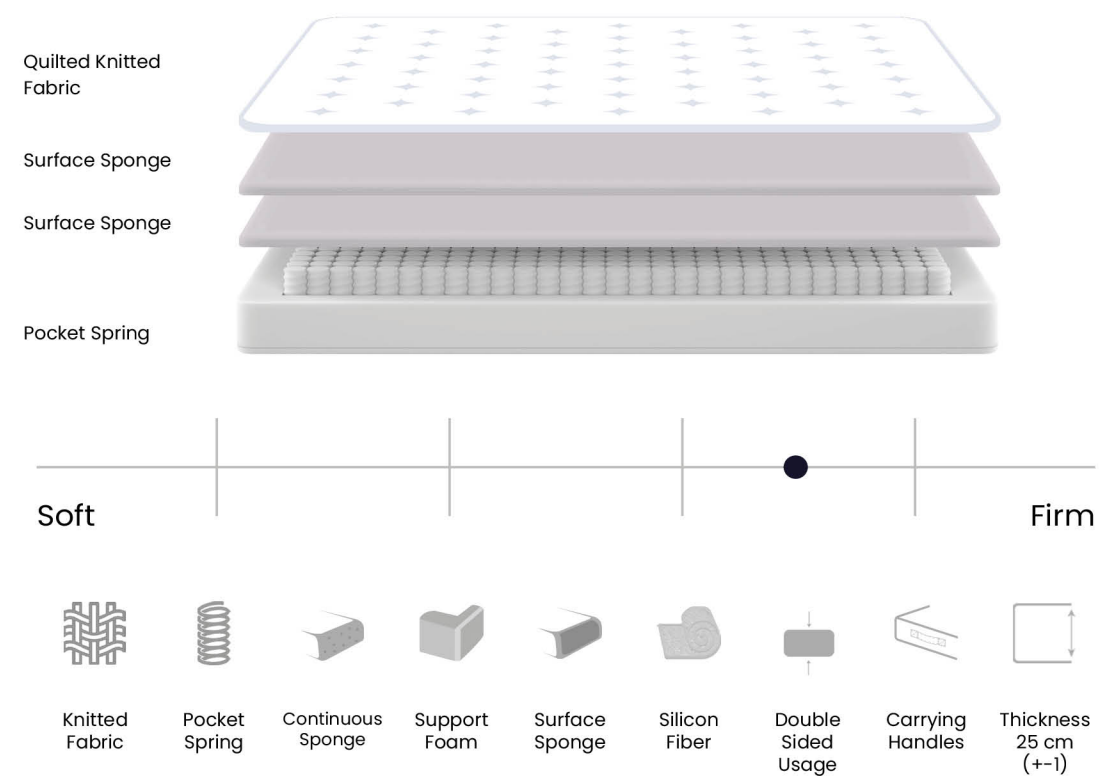

The highest featured pocket springs and foams are used in all layers for long-lasting comfort and durability. The highest quality materials used in it increase the comfort offered by the inner layers and allow the mattress to maintain its shape for many years.

Pocket Spring Comfort

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

The increased balanced surface in the top layer will meet the weight of your body and meet your back and waist with comfort, while the base area of the case, which includes the pocket springs remaining in the center, and the high-quality components in the lower layers will offer the most appropriate support to your body.

Bamboo

The Bamboo mattress, where we use a surface fabric made from natural fiber from real bamboo plant, gives your skin a feeling of freshness and allows you to wake up fit.

Natural Materials

The outer surface, produced by processing the natural bamboo plant, absorbs moisture and quickly dries out, helping the body to breathe. Thanks to its durability, it retains the comfort offered by the inner layers for years.

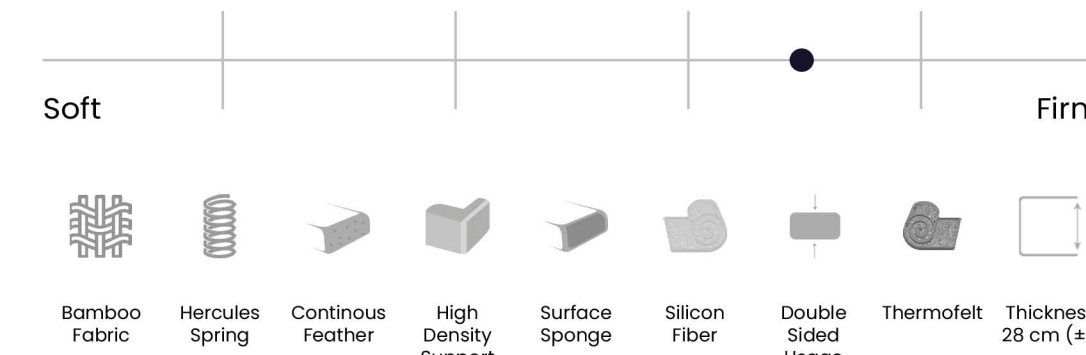

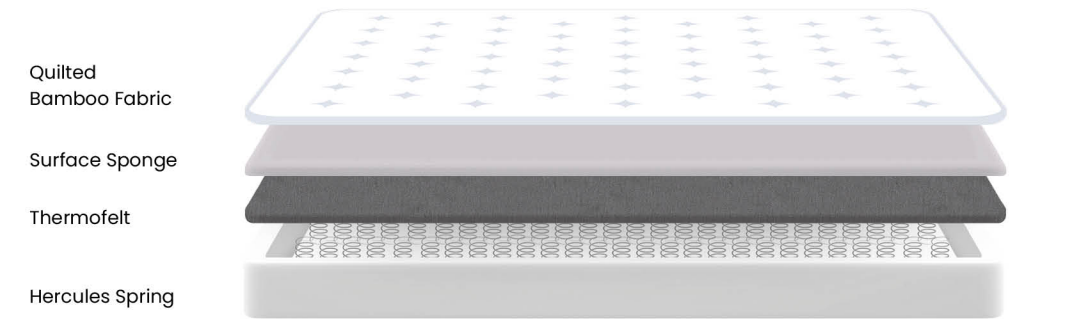

Thanks to the hard material components that we use in the layers of the mattress close to the surface, we have created a mattress that those who prefer firm mattress will love.

The in-mattress layers that we produce from high-quality mattress components also increases the durability of the mattress by providing a stable base support suitable for your body.

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

Master

Extraordinary elegance. Perfect comfort.

Feather Pads, Excellent Appearance

Thanks to the feather pads of the master mattress, the upper surface of your bed is soft and extremely flexible, so that it will respond perfectly to the movements of your body while sleep, therefore you will be able to experience highly comfortable sleep.

The special fabric we use on the outer surface, which is produced by supporting it with cotton, will both affect you aesthetically and increase your sleep quality.

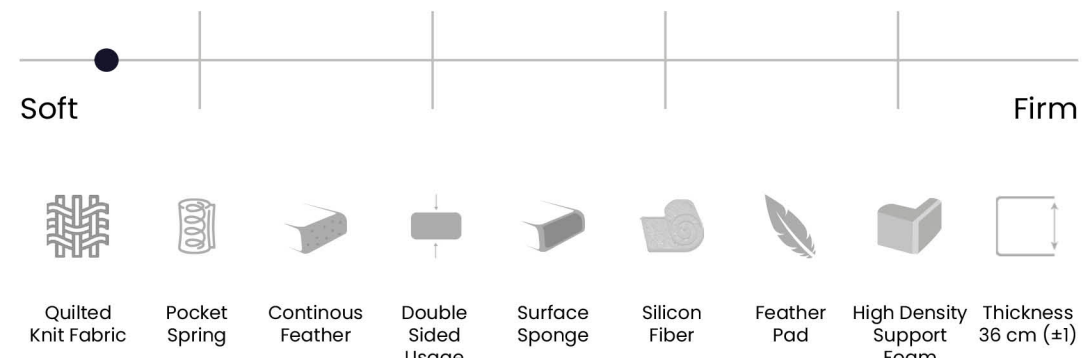

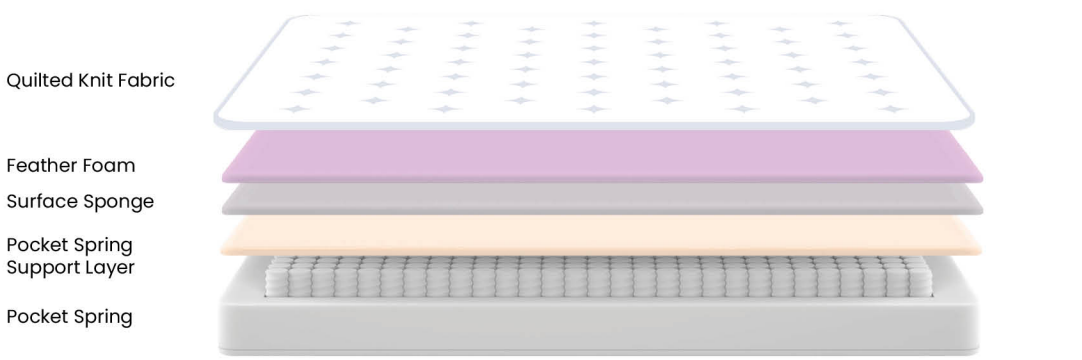

The antiallergic fabric used on its surface which has a special structure helps the outer surface of the mattress to dry quickly by absorbing moisture and helps your body to breathe. The special fabric structure prevents odor and ensures the longevity of your mattress thanks to its double-sidedness.

Unique Harmony of the Pocket Spring and Double-Sided Feather Pad

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

The increased balanced surface in the top layer will meet the weight of your body and meet your back and waist with comfort, while the base area of the case, which includes the pocket springs remaining in the center, and the high-quality components in the lower layers will offer the most appropriate support to your body.

Astra

It provides you a sleep where you will reach the stars.

Serabed Collection's Mastery Work

Using all the highest quality bedding materials in all layers and more than 50 years of production memory, we have created a flawless mattress. The special knitted fabric used on the surface has an extraordinary aesthetic appearance with its different quilting.

Interior Materials With Highest Quality

The hyper sponge which never loses its shape and softness and the feather sponge offering unique comfort combines with breathable knitted cotton fabric, and promises a unique, personalized sleep experience. The antiallergic fabric used on the surface of Astra helps the outer surface of the mattress to dry quickly by absorbing moisture and your body to breathe with its special structure. The non-sweat fabric structure also prevents the smell and thus ensures the longevity of your mattress.

Balanced Support Surface

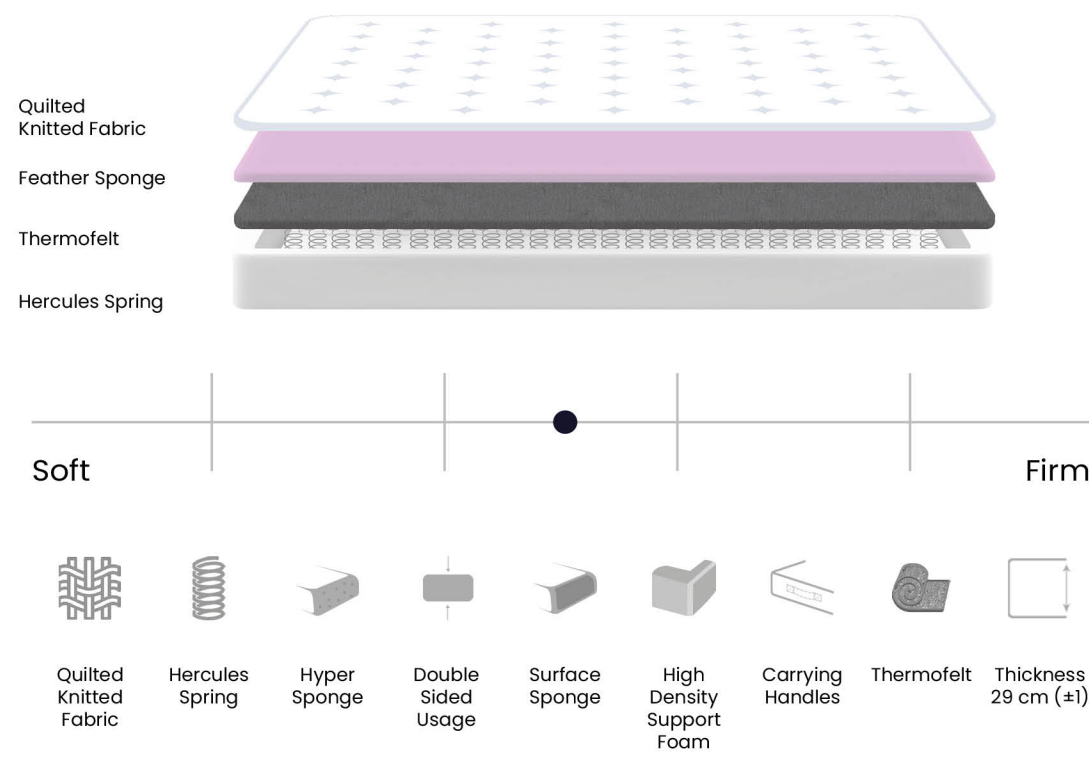

Specially reinforced layers for each pressure zone that all points of your body applies to the mattress will provide you uninterrupted and quality sleep. The increased balanced surface in the top layer will meet the weight of your body, bringing your back and waist together with comfort, while the base area consisting of high-quality components in the lower layers will provide the most suitable support for your waist, back, hips and vertebra.

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

'ad astra per aspera'

Moon

You will feel above the clouds thanks to its soft texture and topper that provides extra comfort.

Extra Comfort

Moon mattress, which we created from special knitted fabric with soft touch, was supported by a soft topper for those looking for extra comfort.

It's not an exaggeration to say it's going to be one of the most comfortable mattresses you've ever slept in. Your body weight will be met by the soft topper in the top layer, while the lower layer we produce from high-quality components will consistently provide the right base support for your body.

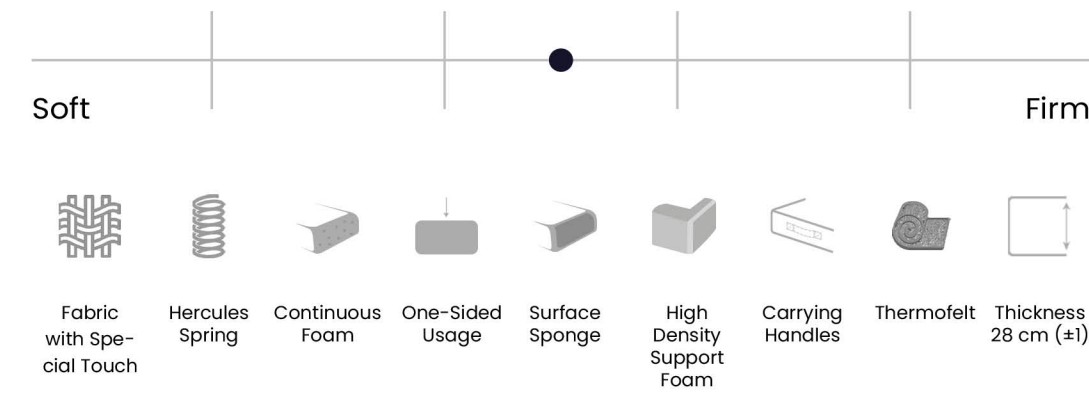

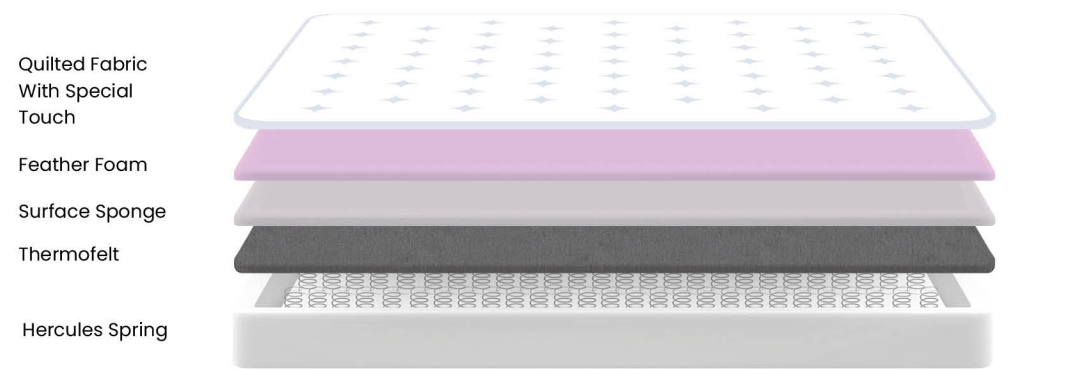

Moon mattress keeps the body in balance thanks to the special fiber used in its quilting. Thus, it brings you together with a highly comfortable sleep experience and allows you to wake up more rested.

Extra Strong Hercules Spring

Regal

Long-lasting with double-sided usage, extra comfortable with pocket springs.

Breathable Special Fabric and Quality Bed Components

Thanks to the unique structure of the antiallergic fabric, a mattress suitable for use in all seasons has emerged.

This fabric structure, which is antiperspirant, prevents the odor that may occur in the mattress, thus creating a longer lasting bed.

Freedom of Double-Sided Usage

We have created a durable and long-lasting bed thanks to the medium firm material components and freedom of double-sided usage, which we used in the layers of the Regal bed's layers close to the surface.

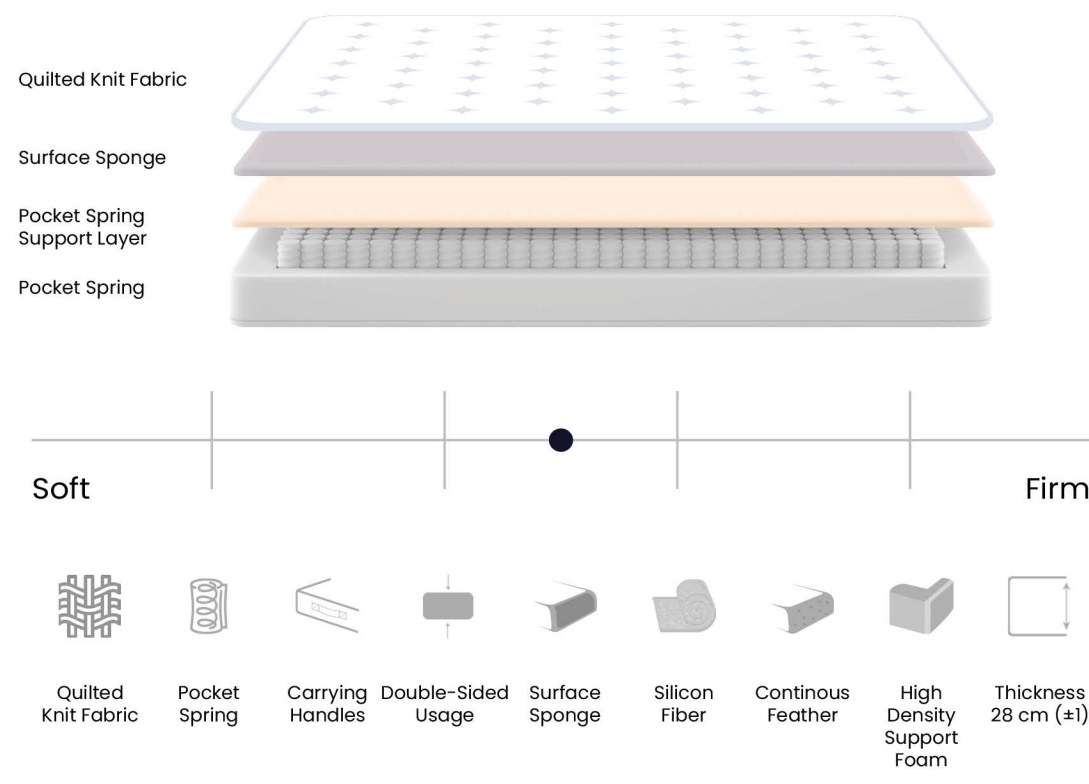

The highest featured pocket springs and foams are used in all layers for long-lasting comfort and durability. Specially reinforced layers for each pressure zone that all points of your body apply to the mattress will provide you an uninterrupted and quality sleep.

Pocket Spring Comfort

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

The increased balanced surface in the top layer will meet the weight of your body and meet your back and waist with comfort, while the base area of the case, which includes the pocket springs remaining in the center, and the high-quality components in the lower layers will offer the most appropriate support to your body.

Comfort Plus

Designed for medium firm mattress lovers.

Freedom of Double-Sided Usage

It is one of the most valuable and durable products of the Serabed collection thanks to its reinforced side support foams and specially produced support layered pocket springs.

Comfort Plus mattress is made to be one of the sturdiest mattresses you will ever sleep in thanks to the materials we use in its inner layers.

The special fabric used on the outer surface, specially produced by supporting it with cotton, will both affect you aesthetically and increase your sleep quality. Thanks to its double-sided usage, it is much more long-lasting.

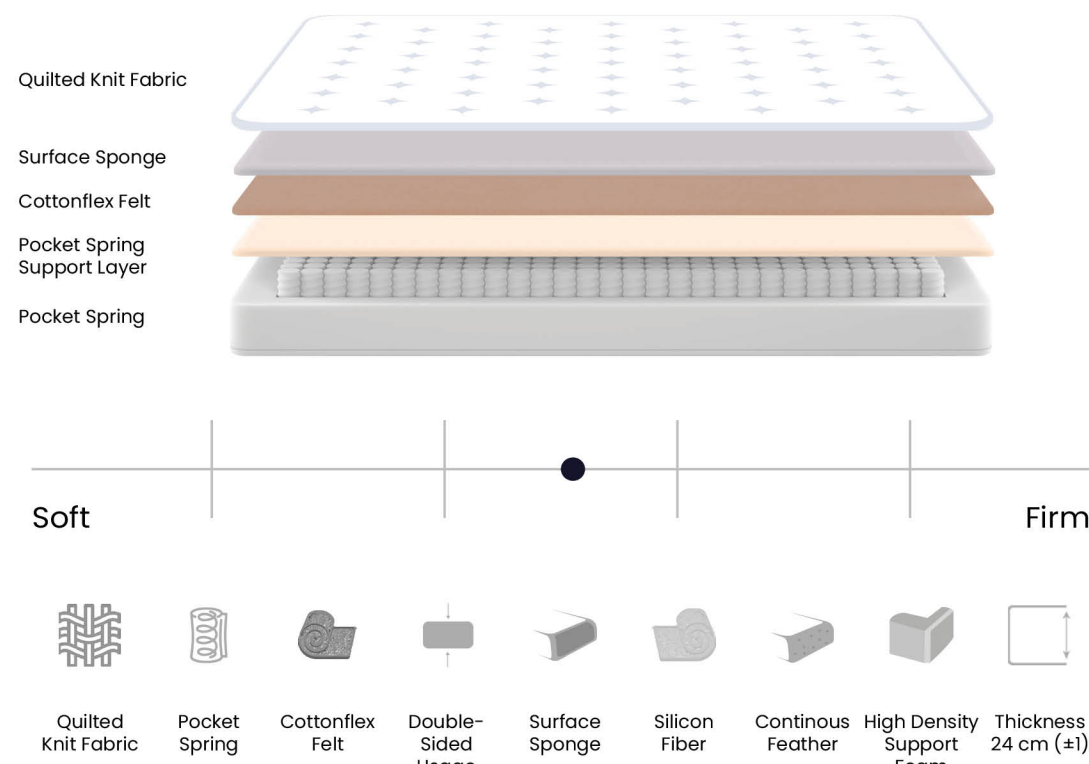

Thanks to the comfort and durability of the pocket springs, as well as other in-bed materials, they will provide a suitable support for your whole body and maintain its form for a long time.

Pocket Spring Comfort

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

Hyper Soft

Hyper Soft's one side is for soft, other side is for firm mattress lovers. You can use it by turning it to the bottom or top side upon your request.

Both Soft and Firm

For those who wants to sleep on the soft side, the hypersoft sponge we used in the inner layer of the mattress is softer and has high flexibility compared to other sponge systems. You can feel the softness and velvety texture thanks to the special sponge used in its quilting. Hyper Soft is designed as one of the most comfortable mattresses you will sleep in thanks to the special components used in its interior layers.

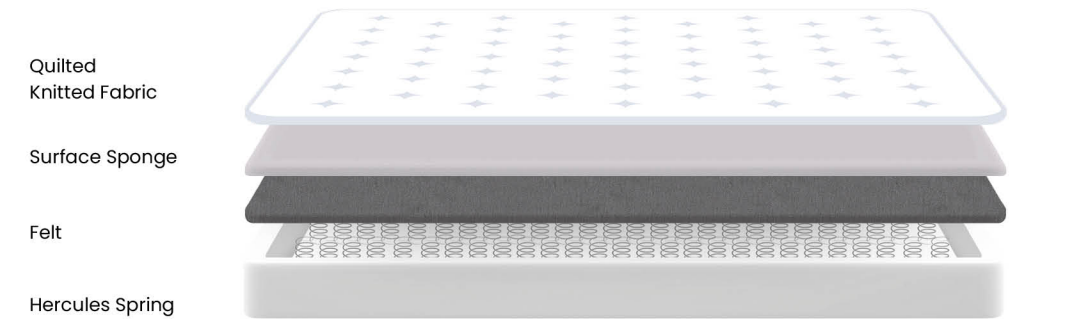

The in-mattress layers that we produce using high-quality components also increases the durability of the mattress by providing the appropriate base support to your body.

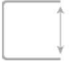

For those who wants to sleep on the firm side of the bed, thanks to the hard material components that we use in the layers close to the bottom surface, we have created a mattress that those who prefer firm mattress will also love.

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

Stockholm

The softest mattress in the Serabed collection. We pushed the boundaries by turning the bed base into a spring mattress.

We Went a Little Further to Create the Softest Mattress

Stockholm is designed as a single work of perfectly balanced softness consisting of 3 different mattresses.

We have increased the durability of the entire mattress by equipping the bottom box-spring section with the strongest hercules springs and providing optimal base support for the pocket spring mattress and topper at the top.

The Softest with the Pocket Spring and Feather Topper

While producing Stockholm, we wrapped the pocket spring mattress in the center with a specially designed linen-like sheath and made it look very special.

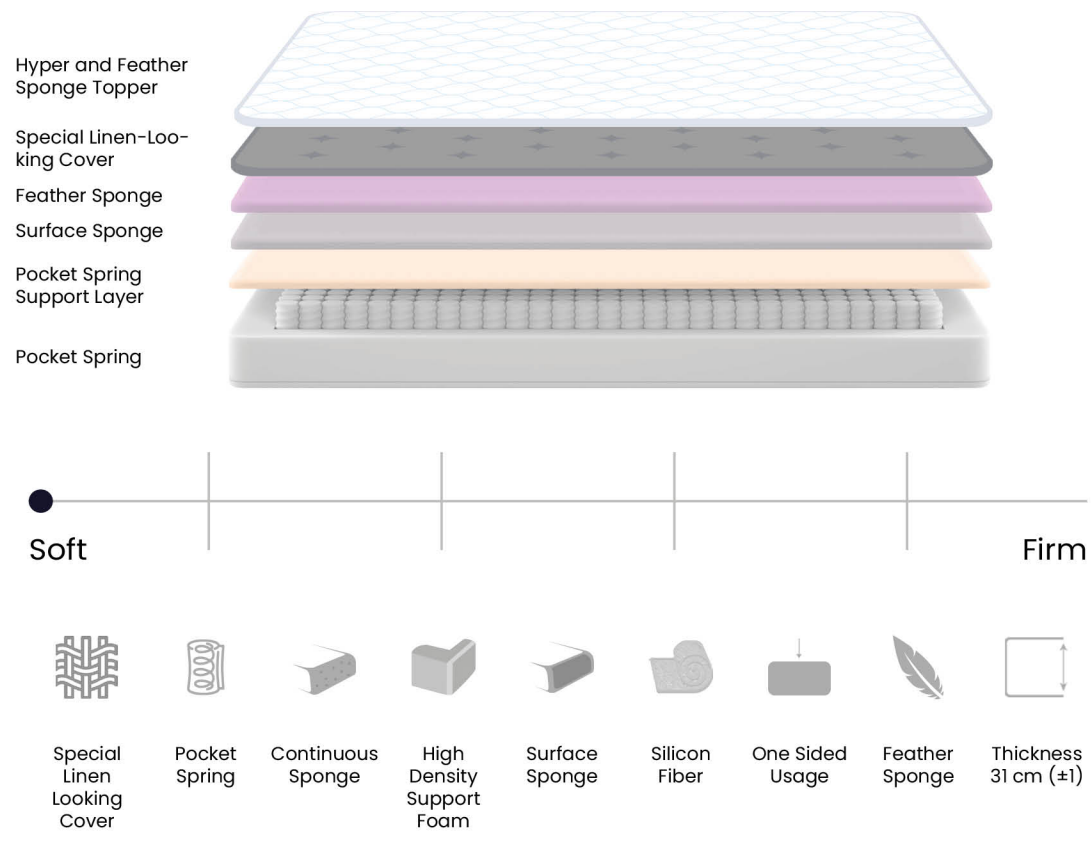

Thanks to the pocket spring system which responds to human anatomy and sleep movements in perfect harmony, spouses will be least affected by each other's movements and will get more uninterrupted sleep.

The hyper sponge which never loses its shape and softness; located just above the pocket spring part and the feather sponge offering unique softness have combined with breathable knitted fabric and came across as a topper with a perfect comfort.

Thanks to the anti-slip sheath located above the pocket spring mattress, the topper and the mattress part can look like one mattress without separating from each other.

Specially reinforced layers for each pressure zone that all points of your body applies to the mattress will offer you uninterrupted sleep pleasure.
